

Silver Streak™

Hybrid Striped Bass

(*Morone chrysops* x *Morone saxatilis*)

Silver Streak Hybrid Striped Bass™ is a hybrid of the male Marine Striped Bass (*Morone saxatilis*) and female freshwater White Bass (*Morone chrysops*), resulting in a fish that has all the desirable characteristics of both species.

The Silver Streak Hybrid Striped Bass cooks up with a mild, fresh flavor with medium texture and small flake. It also has a medium-level fat content.

Raw fish presents as opaque white/grey but cooks up bright white. It is perfect as either whole or fillets for grilling, roasting, broiling, pan searing, frying, steaming, and poaching. It is also a perfect fish for ceviche and crudo preparations.

Silver Streak Hybrid Striped Bass are proudly farmed in Texas and are rated "Best Choice" by Seafood Watch.

Silver Streak Striped Bass

Silver Streak Striped Bass mature in a natural pond environment fed by pristine country wells. An experienced crew monitors growing conditions around the clock 365 days a year.

Fish are harvested to order several times weekly to fulfill orders meaning they are only harvested when ordered. Harvested fish are chilled in an ice slurry, graded, boxed and immediately transported to wholesale customers across the USA and beyond.

KEY FACTS & FIGURES

Whole round: sizes ranging from 1 lbs to 3+ lbs

Other Market Names: Stripers, Wipers, Sunshine Bass, Rockfish and Sea Bass

About Buena Vista Seafood

With decades of global seafood sourcing and sales experience, Buena Vista Seafood is leading the charge by bringing trusted, delicious seafood to chefs and diners across North America. But this doesn't mean that Buena Vista Seafood is going about it as a “business as usual” company. At Buena Vista, the entire team is dedicated to making a difference through positive actions and follow-through. By giving back 5% of the profits to notable organizations that are helping our oceans and waterways, Buena Vista Seafood is setting the bar at a new height for seafood suppliers.

Besides the Buena Vista Seafood give-back program, the company only sources seafood that has been properly vetted and meets the highest of current sustainability standards. Located in San Francisco, California, Buena Vista Seafood is proud to represent serious, responsible fishermen and fish farmers from around the globe.
